

## Services

Tel: 07738 599668

At Kids Talk Matters we believe that every individual has the right and need to communicate. To achieve the best results, therapy comprises some or all of these six main services, depending on your particular circumstances:

- **Assessment:** We offer various types of assessment depending on your child's individual needs. We specialise in oral placement and feedings skills for speech clarity using both TalkTools and PROMPT techniques.
- **Training:** We offer bespoke training for parents, schools and other early years professionals.
- **Target Setting:** This is done in conjunction with parents and home. It allows us to monitor and track your child's progress and can form part of your child's Individual Education Plan
- **Group Therapy:** We are able to offer group therapy sessions when we have a group of children who are similar in age and clinical need.
- **Individual Therapy:** The majority of the therapy we offer is done on an individual basis and tailored to your child's needs.
- **Advice:** If we do not feel that we are the most appropriate service to help you at this time we will offer advice and signpost you to other services who may be more appropriate.

I take pride in offering a service that is flexible and individual to you and your child's needs. Assessment and therapy sessions will be arranged at a mutually convenient time, and can include after-school and school holidays to avoid missing valuable school time. Sessions can take place in your home, school/nursery or at our Harley Street clinic.

Flexibility of service is very important to me, so please get in touch to discuss your individual requirements. I offer a free initial telephone consultation so that you can be confident that Kids Talk Matters is the right service for you.
